However, where council is informed of the nature of the work or business and invests authority in the committee to function, then the committee may decide upon and carry into effect all such matters: provided, however, that where the work or item of business requires an ordinance the committee shall not function until the ordinance has been duly passed, approved, and in effect.

Mr. Jimeny of the Simplex Ejector Company, was present to ascertain when he would likely receive the balance of approximately \$2000.00 due his company by Fish-Rutherford, Inc.; the matter was discussed and on motion of Binder and Clipp it was decided that the balance due Fish-Rutherford Company be paid by check payable to the order of Fish-Rutherford, Inc., and delivered to Mr. Dunn of the National Surety Company, provided that the disposal plant is accepted as completed in accordance with the terms of the contract, by Charles F. Mebus, Engineer, and also provided if it is determined that something is to be done to complete the plant, that a sum sufficient in the judgment of the engineer to complete said work, be withheld until said work is done.

Hatboro, Pa., March 20, 1933

A special meeting of Boro Council was held in Boro Hall on the above date, Vice-President Binder presiding, with the following members present: Guntheimer, Bussinger, Clipp, Craven, Krewson, Morris, Boro Treasurer Watson, Boro Engineer Muldrew, Alfred Young, Mr. Teale and Mrs. A. Bliss of the Alliance Casualty Company, and Mr. McLaren.

Mr. Teale and Mr. Bliss raised the question as to what portion of expense the Boro would pay on the work being done by the Alliance Casualty Company, on the section of sewer on Springdale, Lincoln and Terrace Avenues, and County Line. The Alliance Casualty Company felt that the Boro should bear the expense of opening sewer, cost of cradeling and refilling the ditches in portions of the sewer where there was no cradeling, and according to engineering practice the Boro Engineer should have had the Knox-Mariani Company place cradle around sewer. After lengthy discussion Council felt that if upon opening the sewer ditch and conditions of teraine had changed and the Boro Engineer deemed cradle necessary, the Boro should pay for cradle but not the excavating and refilling of ditch.

On motion of Craven seconded by Bussinger, it was unanimously approved to pay, upon approval of Mr. Duffy, the balance of current estimate No. 14 the sum of \$943.86, and a bill for extras of \$222.21, to the Alliance Casualty Company.

The question arose of connecting Mr. Krewson's two properties on North York Road to the sewer, using one lateral. On motion of Craven seconded by Bussinger, it was unanimously approved to allow Mr. Krewson to connect with one lateral.

The case of Mr. MacKenzie requesting to be allowed to register for \$10.00 inasmuch as he had registered last year. This is contrary to the Boro ordinance, as he had neglected to renew his registration within the specified time. It was unanimously agreed MacKenzie should pay the fee of \$20.00.

The Fire Company was authorized to purchase six rubber coats.

It was brought to the attention of Council that Harry Wilcke, Jr. had registered for 1935 for \$10.00. The charge should have been \$20.00 as he had not been registered before. This being an error of the former sewer clerk. Asked Mr. Duffy's opinion on this case, and he believes that inasmuch as the sewer clerk registered him in error, we could not force him to pay the additional \$10.00, but we could compel him to take an examination and pay \$20.00 for his 1934 license, if he requests a new license.

The matter was discussed, and on motion of Binder seconded by Craven, the Tax Collector and his surety were exonerated from collection of all uncollected personal taxes for 1932, provided, however, that the individuals shall not be exonerated and that the tax collector shall continue in his attempt to collect said taxes.

Tax Collector Leidy also reported having filed liens with the County Commissioner for unpaid property taxes, for both boro and fire, for the year 1932 as follows:

On motion of Clipp, seconded by Binder, it was decided to return all the certified checks, except the three highest bidders, which were to be held for further consideration at a special meeting of Council to be held on Thursday, July 5, at seven P.M.

Mr. Alexander Betcher was in with reference to the sewer at his property York Road and Moreland Avenue. He was informed that the front footage had been liened, but he could make connection by paying for the lateral

Sewer Committee, Mr. Binder, reported there was still a heavy flow at the disposal plant--255,000 gallons daily.

No bids were received for the connection of sewers on the first unit. It was decided to hold the matter over for further consideration.

Street Committee, Mr. Craven, reported some patching had been done. He also gave Council prices for calcium chloride, to settle the dust on Central Avenue. No action was taken. It was further reported that the condition of roadway between the trolley tracks on lower York Road was in bad condition. The Secretary was asked to write the company and ask them to make temporary repairs.

Burgess Wilgus gave Council information with reference to cost of street signs and parking signs. The matter was discussed, but no definite action was taken. He also informed Council that permission had been given to have a display of fire works on July 4, under proper supervision. He also reported that there had been some rowdy conduct in front of the pool room on York Road.

Borough Engineer Mebus was present and presented a letter he had received from Mr. Freeborn. The matter was discussed and the Secretary was requested to write Mr. Wm. H. Baumberg, of the Department of Water and Sewage Research, New Jersey State Experimental Station, New Brunswick, N.J., and to get the approximate price for his services as chemist to make investigation.

Mr. Mebus informed Council this was not a good time of year to make an investigation of the infiltration. It would be better to do it in late winter or spring, and the Borough would require a rubber bag in order to make the test. It was decided to do nothing at this time, but to give same consideration at a later date.

The matter of Borough Officer Ward was discussed, and it was decided to retain Mr. Forien until further notice.

The secretary was directed to bill Upper Moreland Township in the amount of \$183.41, for their share of the expenses in connection with the Sewage Disposal Plant.

Messrs. Walker and Shiles, School Directors, called on Council and asked if they would be permitted to repair Loller Academy with a shingle roof. The matter was discussed and it was decided to advise them later what could be done.

On motion of Binder, seconded by Clipp, the tax collector, John S. Leidy, was exonerated in the amount of \$49.58, for 1932 Borough Taxes, and \$10.02 for 1932 fire tax, as shown in the auditor's report.

Sewer Clerk Kramer made his report for the month of June, 1934, as follows:

The copies of the minutes of the previous meeting having been forwarded to the respective councilmen were approved.

He had done considerable work with the grader on streets, and it was decided to make further repairs and keep two or three men for the next few days. He also reported he had received a letter, under date of November 19, from Mr. Frank McInerney, giving an estimate of \$160.00 to place a large inlet opposite the bakery on York Road. On motion of Binder, seconded by Craven, Council authorized this work done.

Nothing definite was reported with reference to repairing road between P.R.T. tracks as the check had not yet been forthcoming from the Company.

Borough Engineer Mebus reported that he had not yet received any reply from Mr. Freeburn, with reference to the Baumgartner report of the industrial waste at the two plants. The matter was somewhat discussed and on motion, Mr. Duffy, Mr. Suntheimer, and Mr. Mebus were appointed as a Committee to call on the Oscar Nebel Company and discuss the matter with them at the proper time.

A committee of residents from Hatboro Farms, including Mr. Mather, Mr. Robinson, Mr. Spieker, Mr. Wildenhain, Mr. Schneider, and Mr. Kerr, were present with reference to having Moreboro Road rebuilt. Mr. Craven of the Street Committee informed them that he had talked the matter over with Mr. Cooke but Upper Moreland Township had made no application to have their end of the work done.

The matter was left in the hands of the Street Committee for their consideration.

No definite action was taken.

On motion of Craven, seconded by Binder, Council decided to make application to the County to repair South York Road between the trolley tracks, at an approximate cost of \$2700; \$1200 of which has already been paid by the Traction Company, and only 25% of the balance to be paid by the Borough.

Members present, Binder, Clipp, Bussinger, Craven, Borough Solicitor Duffy, Chief of Police Kramer. Also a delegation from the Neighbors Club consisting of Mrs. Clipp, Mrs. Clark, Mrs. Smith, and Mrs. Stevens. This price does not include poles, brackets, fittings, etc.

2 2-way lights	163.20

	\$274.55

If these lights were equipped with combination control, the cost of same would be \$140.68. It was roughly estimated the approximate cost would be about \$400, and it would cost about \$100 per year to operate same on a 12 hour basis.

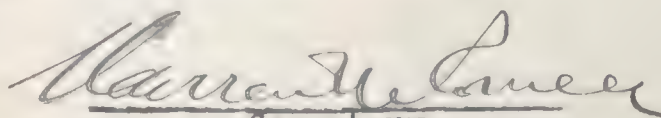

He stated we could get valuable information by consulting Mr. Wm. Gault and Mr. Harry Simons of Electrical Bureau, City Hall; providing we had a survey made showing the exact condition at this intersection.

Burgess W. W. Wilgus informed Council he expected to have a representative of the Keystone Automobile Club in Hatboro in a few days, at which time the matter would be further considered. The Secretary was requested to take the matter up with the State Highway Department and see if they would permit same.

Street Committee, Mr. Craven reported that streets had been patched, and sewers had been cleaned. He suggested that the weeds be mowed along the streets, and that Wood and Markley Streets be cleaned up. On motion of Binder, seconded by Bussinger, the matter was left in the hands of the Street Committee. He also called attention to the man hole on Monument Avenue which should be raised. On motion of Binder, seconded by Bussinger, it was agreed to have same attended to. Mr. Craven informed Council he had kept on the extra men for street work for the present.

Mr. Craven also called Council's attention to the fact that the appointment of special officers should be revised. He suggested that an extra officer be secured for part time, and that proper uniform should be purchased. On motion of Bussinger, seconded by Krewson, the matter was left in the hands of the Burgess and the Chief of Police for their consideration.

On motion of Craven, seconded by Bussinger, it was decided to increase the salary of Officer Forien to \$100 per month.

Request was received for a fire plug on the South end of Springdale Avenue, and on motion of Binder, seconded by Suntheimer, it was decided to move the fire plug that is unnecessary on Byberry Avenue to that location; providing the cost of moving same would not be over \$50.00.

Mr. Craven also brought to Council's attention the matter of a fire plug on Orchard Avenue, in back of Robinson's property. On motion of Binder, seconded by Bussinger, it was agreed that the Borough accept this plug.

Borough Engineer Mebus was present and informed Council they would have a report of the inspection of the sewers at an early date.

The Secretary was requested to notify the School Board and Mr. James Ray that the Borough is now in a position to furnish grade for their sidewalk as soon as they make application for their permit.

The Secretary informed Council that Mr. Mather of Windover Road, Hatboro Farms, was desirous of laying a sidewalk and would like to have the grade. Mr. Mebus agreed to look into the matter, and make a report.

The matter of Oscar Nebel Company dumping dye waste into the creek was discussed, and on motion of Craven, seconded by Krewson, Mr. Mebus, and Mr. Duffy and Mr. Suntheimer were appointed as a committee to call on this company to discuss this matter with them.

Mr. Craven reported he had attended a joint meeting of the Upper Moreland Township commissioners, and it was suggested that grading be done to the ground surrounding the sewage disposal plant and that grass seed be planted; also that a power motor be purchased. On motion of Craven, seconded by Suntheimer this work was authorized.

Burgess Wilgus presented a petition signed by several merchants of the town, taking exception to the ordinance pertaining to the distribution of circulars. The matter was discussed and no action taken.

Sewer Committee Mr. Binder, reported the average daily flow at the sewage disposal plant was 215,686 for Hatboro, and 48,396 for Upper Moreland, or 18%. The Secretary was directed to bill Upper Moreland for their share of the cost of operating the sewage disposal plant in the amount of \$260.48, less \$1.83, which is one-half check received from the Bell Telephone Company for rental of poles at the sewage disposal plant; or a total bill of \$258.65.

Sewer Clerk Kramer made his report of sewer work for the month of May, as follows: Collections: 1935 rents \$84.65; 1934 rents \$29.70; laterals \$50.00; plumbers plans \$5.00; total \$169.35. This amount has been turned over to the Borough Treasurer and receipt taken therefor. Outstanding: 1933 rents \$174.21, 1934 rents \$369.94, laterals \$540.00.

The Borough Treasurer reported a balance of \$1996.88 in the regular account, and \$3337.68 in the sewer fund.

Letter was received from John C. Miller, enclosing certificate that the Lewis B. Lukens bond had been renewed. This certificate was turned over to the Borough Treasurer to be placed in the Borough Box.

Letter was received from Clarence M. Ely, Secty. of Upper Moreland Township, under date of May 16, advising Council that Upper Moreland Township would not go through with the project of rebuilding a street jointly with the Borough of Hatboro from Easton Highway to Horsham Pike.

Letter was received from the Philadelphia Electric Company, under date of May 31, enclosing new contract to the Enterprise Fire Company so they can transfer from rate PSE to rate GLP. The secretary was requested to write the company for an explanation as to what this means.
